ABSTRACT OF THE DISCLOSURE

10           A system and method for efficiently creating a multi-media  
presentation, as well as allowing for searching through the  
presentation to retrieve and display desired subject matter within  
the presentation. The invention provides software that allows a  
user to record audio clips for one or more of the screens of the  
presentation, in any order, and in various manners. In addition,  
the invention maintains a searchable text file to allow a user to  
find desired subject matter within the presentation, and to display  
the corresponding screen(s).
